

REV-1 ANTI-RUST RP STP

REV-1 ANTI-RUST RP STP stands for Rust Preventive for Short Term Protection. It is a solvent based, water displacing fluid that results in thin waxy film of preventive compound. Highly recommended for protection of worked pieces that have been machined using water-based coolants.

Applications of REV-1 ANTI-RUST RP STP can be by brushing or dipping, depending on sizes of worked pieces to be protected. There is no need to remove the thin coating of protection, as it does not hamper with subsequent machining operations.

APPLICATIONS/ BENEFITS

- Displace water rapidly and completely
- Non staining, safe for use on coiled or stacked metals
- Free of barium and other heavy metals
- Best used for worked pieces in transit between operations
